

*The next level of dive experience*

## The True Maldives **ADVENTUROUS LIVEBOARDS**

The True Maldives is active in the Maldives for almost 24 years. Organising adventurous dive safaris (liveboards) for serious divers. We specialise in dive safaris with large marine animals. During 11 Days and 10 nights we do 3 dives a day (except the first and last diving day), including night, wreck, current and drift dives. Breakfast and 2 hot meals a day are included as well as coffee, tea & snacks.

**SMALL COMPANY • OVER 25 YEARS OF EXPERIENCE**

[www.thetruemaldives.com](http://www.thetruemaldives.com)

*On board the safari boat 'The Dhinasha' which is managed exceptionally professional, you will enjoy the surroundings. The boat is kept in very good shape and the crew is amongst the very best we have worked with in the Maldives.*

## SMALL COMPANY

The True Maldives is flexible with the safaris. It can organize safari's for groups and for individuals. Planning of a holiday or business (department) trip is important and you don't want to have surprises when you arrive. Therefore, you can book your safari directly with the organizers and they will give that personal touch to your dive safari.

## THE NEXT LEVEL OF DIVE EXPERIENCE

The True Maldives organize the safari's for small groups (14 people). The planning of each dive is executed based on the location (East or West side of the Atoll), current, moesson period, wind and weather conditions. The dive guide has a key role in the planning. The company invests in the best dive guides in the Maldives with an experience of more than 10.000 dives in the area. This means that for each dive the planning is made very secure and the cruise director can act flexible in order to make every dive a great experience.

## OVER 25 YEARS OF EXPERIENCE

The Cruise Directors have great experience in diving around the globe. They know what divers want and what they need in order to deliver a successful cruise. They can act quick in potential emergency situations and understand the potential risk of each dive. This gives the divers on board a secure feeling. Since the start of The True Maldives in 1994 the above principles have been the heart of the company and with success. Thousands of divers have experienced the next level of an affordable dive safari with value for money.
